Can an Immortyl society survive in a modern world? From the ashes of the first battle of the Immortyl Revolution, vampires Mia Disantini and Kurt Eisen set out to build a new Immortyl society. Trouble arrives in the person of Cedric MacKinnon, a runaway adept of the ancient arts, who brings tidings of upheaval at the chief elder's court that threatens everything Mia and Kurt have accomplished. Mia finds it hard to resist when Cedric pledges his service and tempts her with the legendary skills he learned as an Immortyl courtesan. Facing opposition from both within and out, Mia begins to doubt Kurt is up to the task of leading their followers to his vision of an Immortyl Utopia. Torn between her loyalty to Kurt and Cedric's insistence that she is the earthly manifestation of the Goddess Durga and destined to lead, Mia confronts the greatest challenge of her life.

This is a good one. It's set in India, which alone is cool as hell, but add to that its a tense palace intrigue style political thriller and you have this book. Great read.
